Background

About MerryMeal

MerryMeal is a charitable organization in Singapore, embarking on the Meals on Wheels (MOW) international program, which plans, prepares and delivers meals to its members at home who are unable to buy or make their own meals. It has outsourced kitchens in the North, North-east, East and West regions besides its own kitchen in the Central region as well as outsourced delivery riders in all regions. Its mission is to sustain the food security and nutrition aspects in the quality of life among its members.

About Meals on Wheels

Eligible Members

Eligible members are the following Singapore citizens or permanent residents:

- Disabled or unwell aging 13−59 from families with total household income ≤ S$3000 per month or S$750 per capita monthly.
- Frail, needy or homebound elderly aging ≥ 60 with total household income ≤ S$1900 per month or S$800 per capita monthly.

Background

Key Operations

MerryMeal provides meals for halal, vegetarian, soft or normal diet. Its outsourced kitchens provides hot ready-to-eat meals but twice every weekday and within its 10-kilometer radius. For weekends and those homes beyond the 10-kilometer radius of all outsourced kitchens, frozen ready-to-microwave meals are directly provided by the Central kitchen instead.

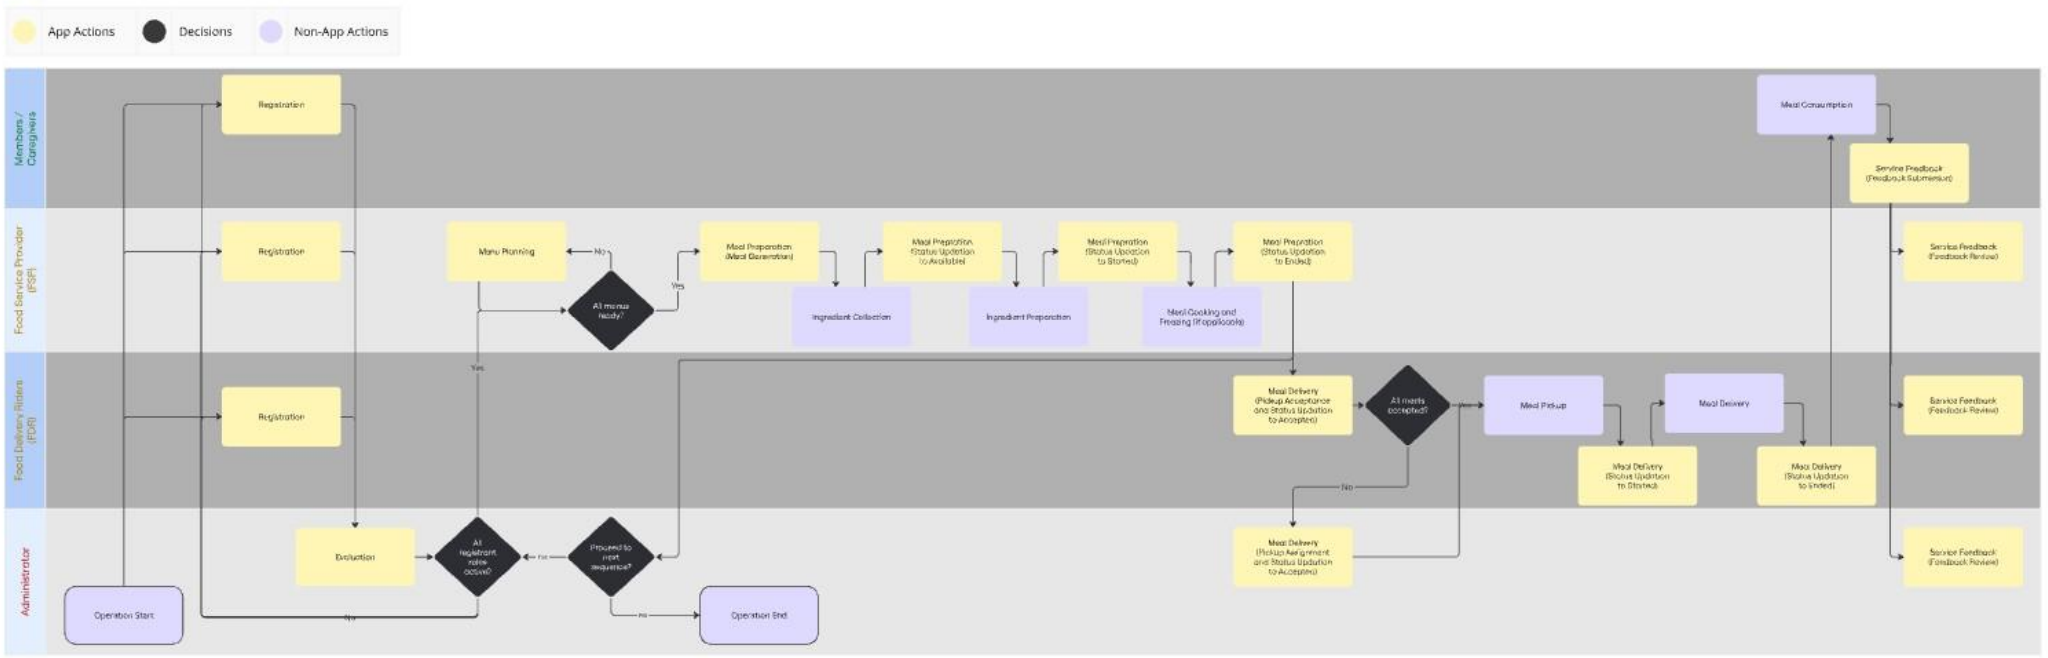
<u>Key Functions</u>

This Enterprise Resource Planning (ERP) application provides the following key functions:

- Provide Privacy Policy, Contacts and User Guide as references.
- Allow potential members, partners and volunteers to register. Members are to also indicate their diets, food allergies and caregivers. Partners / volunteers are to also indicate their roles as Food Service Providers (FSP) or Food Delivery Riders (FDR).
- Allow MerryMeal to evaluate the eligibility of the potential members and the suitability of the potential partners and volunteers.
- Allow FSP to plan the menus for the diets they cater.
- Allow FSP to manage and track the meal preparations.
- Allow FDR to accept and track the meals they can deliver.
- Allow members to track their meals and submit feedback on the services for the FSP and FDR to review.

Background

Overall Business Process



Background

<u>Out of Scope</u>

The application is not expected to handle complexities such as:

- Alternating diets by members.
- Multiple menu items by members.
- Custom work schedules among partners and volunteers.
- Multiple roles among caregivers, partners and volunteers.
- Tracking availability of riders and auto-assignment of deliveries to riders.
- Guidance on travel paths for riders.
- Reassignment of meal preparation to another food service provider or meal delivery to another food delivery rider.
- Reassignment of meals to other members if a member is not requiring a meal without putting his or her registration status on hold or deleted.
- Handling of meal returns and re-preparation of meals.
